

Family group conferences and child safeguarding

Authors	Title	Journal/Publisher / Organisation	Date	Available free at:	Summary/Abstract	Country
Mitchell M, Tisdall K at the University of Edinburgh and Riddell C at Children 1st	Learning from Family Group Conferencing: Reimagining approaches and outcomes to child care and protection		2018	http://www.cfr.ac.uk/learning-from-family-group-conferencing-reimagining-approaches-and-outcomes-to-child-care-and-protection/	Dr Mary Mitchell has undertaken research in collaboration with Children 1st and the Centre for Research on Family and Relationships at the University of Edinburgh asking about the contribution that FGC makes to longer- term outcomes for children at risk of being accommodated in Scotland and for their families.	UK
Marsh P	Kent family group conference financial analysis		2013	 Kent FGC outcomes report 2-13 from pres	The study was designed to undertake a comprehensive evaluation of the placement outcomes and the potential cost implications for all children in Kent deemed to be at risk of entering care over a year. In summary if there was no FGC service, then increased costs for Kent annually of at least 160 care years and potentially up to 260 care years are likely	England

Rauktis ME, Bishop-Fitzpatrick L, Jung N & Pennell J	Family group decision making: Measuring fidelity to practice principles in public child welfare	Children and Youth Services Review 35 (2013) 287–295	2013	no	Report examining fidelity of FGDM processes and different perspectives on this. The report concludes with advice to child welfare practitioners.	US and international
NEY Tara, STOLTZ J, MALONEY M	Voice, power and discourse: experiences of participants in family group conferences in the context of child protection	Journal of Social Work, 13(2), 2013, pp.184-202	2013	http://www.uk.sagepub.com/journalsProdDesc.nav?prodId=Journal201477	The authors explore the tensions that emerge when two very different discourses; the ‘democratic’, participatory discourse of family group conferencing (FGC) and the legalistic, bureaucratised discourse of conventional child welfare practice, attempt to integrate. A total of 74 interviews were carried out in British Columbia, involving 26 adult family members/caregivers (three youth); six child protection workers; and three FGC coordinators.. The findings reveal how participants’ voices were co-opted by the more forceful child protection discourse. The authors describe how in each case participants’ experience of power was subjugated, even though, in each instance, the case was perceived to have had a successful outcome by the social worker and FGC coordinator. They conclude that if those involved in administering and delivering family	

					group conferencing continue to at least be aware of how power operates in this context, then the possibility exists to realise FGC's broader social justice and transformative goals.	
Department of human services, States of Hawaii	Family Connections Hawaii	www.familyfinding.org	2012	http://familyfinding.org/uploaded_files/fck/files/Family%20Connections%20Hawaii%20Final%20Report%2012-31-2012.pdf	Examination of culturally sensitive FGC model incorporating 'family finding' methodologies and its use with indigenous population in Hawaii. Outcomes show fewer children removed to state care or reduced time in care.	US Hawaii
PILCHER D, ARNILL M	'Allowed to be there': the wider family and child protection	Practice: Social Work in Action, 22(1), February 2010, pp.17-31	2010	http://www.tandfonline.com/loi/cpra20#.VARP9-Z0yM8	The authors worked with a multidisciplinary group of practitioners and other professionals and a group of grandparents and other family members who had already experienced child protection intervention in their own families to test recent thinking and emerging practices of kinship care.	UK

DARLINGTON Y, et al	Parents' perceptions of their participation in mandated family group meetings	Children and Youth Services Review, 34(2), February 2012, pp.331-337	2012	http://www.journals.elsevier.com/children-and-youth-services-review/	In Queensland, Australia, Family Group Meetings (FGMs), were legislated in 2005. This article reports findings from semi-structured interviews with 10 parents (5 mothers and 5 fathers) who participated in FGMs. The interviews focused on the parents' experiences of the meetings, including factors that promote or inhibit participation. The findings showed that positive experiences of participation were associated with: feeling respected by professionals; feeling that one's opinions were heard; and being supported at the meeting. Conversely, parents who reported overall negative experiences spoke of: not feeling respected; not having their opinions heard; and not being supported during the meeting.	Australia
Ottolini D	The family conferencing: a groundbreaking practise for community based child protection in Kenya	Save the children	2011	http://resourcecentre.savethechildren.se/sites/default/files/documents/the_family_conferencing_-_diego_ottolini1.pdf	Very detailed and longitudinal study of FGCs in Kenya, East Africa working with children in youth justice facilities usually as a result of being 'on the street' engaging in crime or at risk.	Kenya

Family Rights Group	What is a family group conferences? A guide for Families: Film	Family Rights Group, London	2010	http://www.frg.org.uk/what-is-a-family-group-conference-a-guide-for-families		England and Wales
Family Rights Group	Developing a Family Group Conference Service: film	Family Rights Group, London	2010	no		England and Wales
Pennell J, Edwards M & Burford G	Expedited family group engagement and child permanency.	Children and Youth Services Review, 32(7), 1012-1019.	2010	No	This study in Washington, D.C., evaluated the impact of family team meetings on children's permanency. The meetings were convened within 72 hours after an emergency removal to give the family group the opportunity for input into the plan. The study compares outcomes for three groups: the FTM group, similar families who reviewed normal services before the instigation of the FTM service and families who had similar problems but who received other services. The results showed those receiving FTMs were more likely to be placed with family/relative carers and have shorter times in care.	US

Heino T	Family Group Conference from a Child Perspective Nordic Research Report	National Institute for Health and Welfare	2009	http://www.thl.fi/thl-client/pdfs/da905b95-70f6-4db8-9d82-91b74fe55ed0		Finland
Lorentzen B L	Effects of family group decision making in a voluntary family maintenance program.	Dissertation Abstracts International A. Humanities and Social Sciences, 69 (09), 3743. (UMI No. 3331701)	2009	No	A study in California looking at outcome differences between families who receive FGDM and other mainstream services. The study found no significant outcome differences.	US
Marsh P	Family group conferences.	Highlight 248	2009		Examines FGC practice in UK and wider legal and practice issues.	UK

Olson K B	Family group conferencing and child protection mediation: essential tools for prioritizing family engagement in child welfare cases.	Family Court Review 47(1), 2009: 53-68.	2009	http://onlinelibrary.wiley.com/doi/10.1111/j.1744-1617.2009.00239.x/abstract	Considers FGCs in context of child protection and statutory decision making and the added value brought by the model to these forums.	
Schmid J E & Pollack S	Developing Shared Knowledge: Family Group Conferencing as a Means of Negotiating Power in the Child Welfare System	Practice: Social Work in Action	2009	No		

Weigensberg E C, Barth R P & Guo S	Family group decision making: A propensity score analysis to evaluate child and family services at baseline and after 36- months.	Children and Youth Services Review.	2009	No	American study looks at impact of family meetings (encompassing all family led decision making models) on engagement with services compared with other mainstream interventions. Study found significantly higher connection with services immediately after the family meeting. Differences had reduced 3 years later.	US
Brodie K A	Family group conference: An exploratory study describing the relationship between an internal agency environment and the process.	Doctoral dissertation, Howard University, Washington, D.C.	2008	No	Californian study examining aspects of how welfare services are operated and their impact on the use, take up and the continuation of FGC services. Found that factors that influenced this were supervisor and social work expectations, the degree of crisis management in services, costs and external funding and state and federal mandates.	US
Falck S	Do family group conferences lead to a better situation for the children involved?	Oslo, Norway: NOVA (Norwegian Social Research), Ministry of Education and Research.	2008	No	Study in Norway of outcomes for children subject to child protection concerns experiencing either FGCs or other services. Cases were followed up for 3 years. Outcomes demonstrated greater family mobilisation and greater care and support for children subject to FGCs.	Norway

Harris N	Family group conferencing in Australia 15 years on	Child Abuse Prevention Issue, No. 27 Melbourne, Victoria, Australia: Australian Institute of Family Studies.	2008	http://www.aifs.gov.au/nch/pubs/issues/issues27/issues27.pdf		Australia
Holland S & Rivett M	Everyone Started Shouting': Making Connections between the Process of Family Group Conferences and Family Therapy Practice	British Journal of Social Work; Jan 2008, Vol. 38 Issue 1, p21	2008	No	Qualitative study examining FGCs in Wales looking at how FGCs and family therapy manage aspects of emotional communication within families and the learning that each process can offer to the other.	Wales
Horwitz M	Family conferencing as core child protection practice.	Unpublished manuscript.	2008	no	American study that examines the value of FGCs within a child protection arena. Very high number of FGC outcomes examined which showed higher engagement of kin support to parents across a range of areas. Emphasises the importance of proper planning and preparation in order to achieve positive outcomes.	US

Ministry of Children and Family Development, Vancouver Coastal Region, Collaborative Practice Team	Family case planning conferencing: Pilot project evaluation.	Victoria, British Columbia, Canada: Ministry of Children and Family Development.	2008	no	A Canadian qualitative analysis of the use of family case planning conferences 'a useful option between the more professionally driven integrated case management meetings and the more family-led family group conferences.' Model seen as useful in relation to situations requiring tight timescales.	Canada
Sawyer R Q & Lohrbach S	Creating a constructive practice: family and professional partnership in high risk child protection case conferences	Protecting Children	2008	http://www.co.ohio.gov/cspublications/Documents/CFS_Publications/creating_a_constructive_practice.pdf	This is an interesting article on engaging with families on edge or in legal proceedings using 3 models. Very detailed and positive re outcomes over nearly 10 years. Relevant to considerations of how FGCs are being used as part of pre proceedings.	US
Ashley C & Nixon P (Ed)	Family Group Conferences – where next? Policies and Practices for the Future	Family Rights Group, London	2007	No	This book combines a series of essays from policy, research and practice perspectives, with ideas on how best to deliver and develop family group conference practices	UK

Merkel-Holguin L	Questions about implementation and practice: patterns in the United States	In Ashley C & Nixon P (Ed.) Family Group Conferences – Where Next? Policies & Practices for the Future, Family Rights Group, London	2007	No		US
Quinn Aziz, Abyd	Understanding the evidence – what does empirical research and evaluation say about family group conferences in England and Wales?	In Ashley C & Nixon P (Ed.) Family Group Conferences – Where Next? Policies & Practices for the Future, Family Rights Group, London	2007	No		England and Wales
Couldrick A and Nixon P	Changing organisational culture and practice to build on families' strengths: a leadership and management perspective	In Ashley C & Nixon P (Ed.) Family Group Conferences – Where Next? Policies & Practices for the Future, Family Rights Group, London	2007	No		England

American Humane Association	FGDM: Increasing the Knowledge Base .	Protecting children	2007	No	American journal presenting three articles concerning specific areas of FGC practice and developments. Examines agency engagement with the model, FGCs and father engagement, and use of FGCs alongside other crisis conferencing models around pre birth planning.	US
Brown L	The adoption and implementation of a service innovation in a social work setting – A case study of family group conferencing in the UK.	Social Policy and Society, 6(3), 321-332.	2007	No	Drawing on previous work the author examines barriers to the use and development of FGCs in the UK and makes recommendations as to how the model can be mainstreamed and referrer concern for its use addressed.	UK
Crampton D	Research Review: Family group decision-making: a promising practice in need of more programme theory and research	Child and Family Social Work 12, pp 202–209	2007	No	An overview of the research on the use of FGCs between 1996 and 2005 proposing future development in order to further embed the model including how to move towards the model being 'evidence based'.	US

Edwards L & Sagatun-Edwards I	The transition to group decision making in child protection cases: Obtaining better results for children and families.	Juvenile and Family Court Journal, 58(1), 1-16.	2007	http://onlinelibrary.wiley.com/doi/10.1111/j.1755-6988.2007.tb00132.x/abstract	Examines use of different family led decision making models within child protection system in California and drawing on strengths of these models makes recommendations for use within child protection practice.	US
Glode J & Wien F	Evaluating the family group conferencing approach in a First Nations context.	In C. Chamberland, S. Léveillé, & N. Trocmé (Eds.), <i>Enfants à protéger, parents à aider, des univers à rapprocher</i> (pp. 264-276). Quebec City, Canada: Presses de l'Université de Québec.	2007	No	Comparative study of use of FGCs with indigenous communities in Canada. Control group study found positive outcomes for FGC group including better familiarity with concerns and more culturally sensitive engagement.	Canada
Harris N	Mapping the adoption of family group conferencing in Australian states and territories.	Adelaide, Australia: Australian Centre for Child Protection	2007		Examination of the development of FGCs in Australia and comparison with the use of the approach in New Zealand.	Australia/NZ

Holland S, Aziz Q & Robinson A	The development of an all-Wales evaluation tool for family group conferences: Final research report.	Cardiff, Wales: Cardiff University.	2007	No	Examines the development and use of FGCs in Wales and pioneers the comprehensive use of a measurement tool across Welsh projects.	Wales
Laws S & Kirby P	Under the table or at the table: Supporting children and families in family group conferences – a summary of the Daybreak research.		2007	http://www.pkrc.co.uk/_lib/doc/publication_underthtable.pdf	A report on the use of advocacy by Daybreak and the relative merits of different approaches to advocacy. Makes recommendations for practice.	England
Merkel-Holguin L, Tinworth K, Horner A & Wilmot L	Using family group conferencing to achieve permanency for youth.	Protecting Children, 22(1), 38-49.	2007	http://site.americanhumane.org/site/DocServer/P_Carticle.pdf?docID=6041?docID=6041	This American article examines the needs of young people exiting the care system and their need for permanency and stability and the potential that FGCs offer to achieve this.	US
Seattle, WA	Finding our roots: Family group conferencing in Washington.	Northwest Institute for Children and Families, & Catalyst for Kids.	2007	No	American study that examines the use of FGCs with children 'of colour' and effectiveness of the model in engaging wider family and community supports.	US

Staples J	Knowle West Family Group Conference Project: Evaluation report.	Bristol, England: Barnardo's/Knowle West Neighbourhood Renewal	2007	No	A Barnardos review of an FGC service delivered within a deprived community in Bristol. A high number of participants were contacted. Reports positive views expressed by families and professionals of the process with specific outcomes reported.	England
Ashley C, Holton L, Horan H, Wiffin J	The Family Group Conference Toolkit – a practical guide for setting up and running an FGC service	Family Rights Group, London	2006	no		England and Wales
Bell M and Wilson K	Children's views of family group conferences.	British Journal of Social Work 36(4), June 2006: 671-81.	2006	http://www.scie-socialcareonline.org.uk/childrens-views-of-family-group-conferences/r/a1CG000000GMtvMAG		

Berzin S C	Using sibling data to understand the impact of family group decision-making on child welfare outcomes.	Children and Youth Services Review, 28, 1449-1458	2006	No	American study which examines outcomes for children and siblings experiencing FGCs or other mainstream interventions. No significant differences reported.	US
Brady B	Facilitating Family Decision Making: A Study of the Family Welfare Conference Service in the HSE Western Area	HSE / NUI, Galway Child & Family Research and Policy Unit	2006	http://www.childandfamilyresearch.ie/sites/www.childandfamilyresearch.ie/files/facilitating_family_decision_making_a_study_of_the_family_welfare_conference_service_in_the_hse_western_area.pdf	Three stage report on the implementation of FGCs in the Republic of Ireland where the Children Act 2001 made provision for their use in child welfare and youth justice cases. Reports examine implementation and views of participants.	Ireland

Connolly M	Up front and personal: Confronting dynamics in the family group conference.	Family Process, 45(3), 345-357.	2006	No	This article examines the development of FGCs in New Zealand and the views specifically of FGC coordinators in managing the process. Using three coordinator focus groups it looks at their views concerning effective FGC practice.	NZ
Connolly M	Fifteen years of family group conferencing: Coordinators talk about their experiences in Aotearoa New Zealand.	British Journal of Social Work, 36(4), 523-540.	2006	No	This small qualitative study from New Zealand explores the views of FGC coordinators concerning the development of the model, the drivers influencing change and the challenge of managing child protection and family support functions within the process.	NZ
Crampton D	When do social workers and family members try family group decision making? A process evaluation.	International Journal of Child & Family Welfare, 9(3), 131-143.	2006	No	This American study examines the characteristics of families referred for FGCs and those of the families that then go on to successfully have a meeting. It found high levels of agreement between professionals as to which families would benefit.	US

Dawson A & Yancey B	Youth Participants Speak About Their Family Group Conference	American Humane FGDM Issues in Brief	2006	http://www.ucdenver.edu/academics/colleges/medicalschool/departments/pediatrics/subs/can/FGDM/Documents/FGDM%20Web%20Pages/Resources/Issue%20Briefs/pc-fgdm-ib-youth-participants.pdf	This American study examines the views of young people who are exiting care concerning what worked for them in their FGC. The study also reports very positive outcomes in the numbers of young people who moved to less restrictive placements following their FGC.	US
Holland S & O'Neill S	'We had to be there to make sure it was what we wanted': Enabling children's participation in family decision-making through the family group conference.	Childhood, 13(1), 91-111.	2006	No	A small scale study of young people's participation in FGCs in Wales examining the risks and benefits of their involvement with indications for good practice.	Wales

Koch M, Hilt L, Jenkins L, & Dunn T	Family group conferencing: 45 children a 12 month study.	Presentation at the World Forum: Future Directions in Child Welfare, Vancouver, British Columbia, Canada.	2006	No	PowerPoint report to a conference in Canada reporting on the outcomes for families engaged in FGCs in Australia. Reports post conference increase in number of children creed for in families and more culturally sensitive decisions for Aboriginal families.	Australian
Pennell J	Restorative practices and child welfare: Toward an inclusive civil society.	In B. Morrison & E. Ahmed (Eds.), Restorative justice and civil society [Special issue]. Journal of Social Issues, 62(2), 257-277.	2006	http://repository.lib.ncsu.edu/publications/bitstream/1840.2/53/1/Restorative%2BPractices%2Band%2BChild%2BWelfare.pdf	American study which looked at the potential for FGCs to increase participatory decision making for children. Benefits were less when the process was not properly followed.	US
Weisz V, Korpas A & Wingrove T	Nebraska family group conferencing: Evaluation report.	Lincoln, NE: University of Nebraska, UN-L Center on Children, Families, and the Law, Nebraska Court Improvement Project.	2006	No	American study which examines the use of 'expedited' (quicker) FGC meetings following removal of a child alongside regular FGCs. Study reports that children who had an FGC within 30 days of removal were more likely to be placed with wider family/parents that those who didn't get the service.	US

Kiely P	A longitudinal evaluation of family group conferencing	9th Australian Institute of Family Studies Conference	2005	http://www.aifs.gov.au/conferences/aifs9/kiely.pdf	An Australian longitudinal study of the impact of FGCs for children in the child protection process. Reports higher rates of kin placements and reduction in child protection referrals for FGC families.	Australia
Connolly M	Consulting with care and protection resource panels: Coordinators' perspectives.	Te Awatea Review, 3(1), 9-11.	2005	No	Report on the use of care and protection resource panels as set up within the New Zealand legislation to advise FGC coordinators on practice.	NZ
Holland S, Scourfield J O'Neill S, & Pithouse A	Democratising the family and the state? The case of family group conferences in child welfare.	Journal of Social Policy, 34(1), 59-77.	2005	No	A Welsh study which examines the potential of the FGC to promote participatory decision making and to truly empower families.	Wales

Thomas K L, Berzin S C & Cohen E	Fidelity of family group decision making: A content analysis of family conference and case plans in a randomized treatment study.	Protecting Children, 19(4), 4-15.	2005	no	An examination of the differences between FGC plans and plans made through traditional case conference approaches. The results report the idiosyncratic nature of FGC plans as opposed to the more uniform nature of traditional plans.	US
Titcomb A & LeCroy C	Outcomes of Arizona's family group decision making program.	Protecting Children, 19(4), 47-53.	2005	No	A longitudinal study of outcomes for families engaged in FGCs in Arizona. The study reports lower rates of re-referral for safeguarding concerns and higher involvement and satisfaction amongst family involved in the FGC.	US
Walker L	A cohort study of 'ohana conferencing in child abuse and neglect cases.	Protecting Children, 19(4), 36-46.	2005	No	Comparative study of families who experience culturally sensitive 'Ohana' conferences in Hawaii. Positive outcomes reported for families who had this approach as opposed to families subject to traditional approaches.	US Hawaii

Walton E, McKenzie M & Connolly M	Private family time: The heart of family group conferencing.	Protecting Children, 19(4), 17-24.	2005	No	A study of the views of New Zealand coordinators to the value and use of private family time. Reports positively on the value of PFT but that there is also some professional discretion as to its use.	NZ
Carson G	Family conferences bid for mainstream.	Children Now, 6 October 2004: p.8.	2004	No	Discusses moves by Children 1st to set up a unit promoting the use of FGCs as a means of keeping children out of public care.	Scotland
Connolly M	Convening family group conferences: Coordinators talk about professional issues.	Social Work Review, 16, 8-10.	2004	No	Report on a small scale study of New Zealand coordinators' views of FGCs and the factors influencing their practice.	NZ
Connolly M	A Perspective on the Origins of Family Group Conferencing.		2004	http://www.americanhumane.org/assets/pdfs/children/fgdm/pc-fgdm-ib-fgc-origins.pdf	This article considers the multitudinous factors that led to the emergence of the FGC approach in New Zealand and considers them in relation to contemporary developments.	NZ

Sundell K., Vinnerljun B	Outcomes of family group conferencing in Sweden: A 3-year follow-up	Child Abuse & Neglect 28 (2004) 267–287	2004		A longitudinal Swedish study of the outcomes for families in FGCs compared to traditional interventions. The report found higher rates of re-referral for abuse for those families who had experienced the FGC and concludes that the evidence does not support claims that the process is effective in preventing future maltreatment.	Sweden
Brown L	Mainstream or margin? The current use of family group conferences in child welfare practice in the UK.	Child and Family Social Work 8(4), November 2003: 331-40.	2003	No	An examination of the use of FGCs in the UK and the constraints on their developing use.	UK
Desmeules G H	Family group conferencing: A decolonization journey for aboriginal children and families in child protection services.	Unpublished master's thesis, Royal Roads University, Victoria, British Columbia, Canada.	2003	http://www.collactionscanada.gc.ca/obj/s4/f2/dsk4/etd/MQ77758.pdf	A small Canadian study to consider adaptations to the FGC model to fit the cultural needs of the aboriginal community.	Canada

Garcia J A Sivak P & Tibrewal S	Transforming relationships in practice and research: what is the Stanislaus model?	Protecting Children 18(1&2) 2003: 22-29.	2003	No	An evaluation of the FGC approach in a region of California.	US
Gunderson K, Cahn K & Wirth J	The Washington State long-term outcome study.	Protecting Children, 18(1 & 2), 42-47.	2003	no	Summary of a long term outcome evaluation of FGCs in Washington.	US
Heino T	Using family group conferencing to protect children in Finland.	Protecting Children 18(1&2) 2003: 121-123.	2003	No	A detailed examination of the involvement of children in their FGCs in Finland.	Finland
Horan H & Dalrymple J	Promoting the participation rights of children and young people in family group conferences.	Practice 15(2), 2003: 5-14.	2003	http://www.americanhumane.org/assets/pdfs/children/fgdm/pc-fgdm-horan-dalrymple.pdf	A report on the involvement of children in the Barnardos FGC service in Wiltshire which promotes the benefits of advocacy.	England

Marsh P and Crow G	Family group conferencing: a national process and outcome study in England and Wales - 1997.	Protecting Children 18(1&2) 2003: 129-130.	2003	No	Report on the outcomes of a large scale study of the use of FGCs in England and Wales.	England and Wales
Nyberg E	Family group conferencing in Sweden	Protecting Children, 18(1&2) 2003: 119-120.	2003	No	Report on the development of FGCs in Sweden.	Sweden
Rasmussen B M	Vulnerability and energy: the study of the Danish experiment with family group conferencing.	Protecting Children 18(1&2) 2003: 124-126	2003	No	Summary of a trial of FGCs in Denmark in 1999	Denmark
Stevens M	Reconstruction works? Constructing family perspectives of the outcomes of FGCs.	Protecting Children 18(1&2) 2003: 30-41.	2003	No	A study of family members views of the outcomes of FGCs.	

Sundell K	Family group conferences in Sweden -- continuing social services programs for children and parents [English Summary].	http://www.sos.se/socialtj/cus/cuse/empstude/famrad99sum.htm	2003	No	Reports on a detailed 3 year evaluation of FGCs in Sweden. Families who experienced FGCs and those who had traditional interventions were followed up 3 years subsequent to the intervention. Those who had FGCs were found to have higher rates of referral for child protection concerns. Some questions regarding the limitations of the methodology of the research .	Sweden

Titcomb A & LeCroy C	Evaluation of Arizona's family group decision making program.	Protecting Children, 18(1 & 2), 58-64.	2003	no	Report of a 3 year outcome based study of FGCs in Arizona. Findings demonstrated reduction in stranger placements, higher satisfaction amongst family members and significant reduction in re-referrals for abuse or neglect.	US
Wheeler C E & Johnson S	Evaluating family group decision making: The Santa Clara example.	Protecting Children, 18(1 & 2), 65-69.	2003	no	A study of cost benefits and outcomes from FGCs and Family Unity meetings in Santa Clara, America. Children who had family group conferences had better stability of placements and shorter periods in care. FGCs found to be cost neutral.	US
O'Sullivan B, McKinney A & Gallagher S	Family group conference pilot project.	Belfast, Northern Ireland: North Western Health Board.	2002	No	An initial study of the introduction of FGCs in the Republic of Ireland looking at outcomes from the first 6 FGCs. Participants report high level of satisfaction with process and outcomes.	Northern Ireland
Kiely P & Bussey K	Family group conferencing: A longitudinal evaluation.	Sydney, Australia: Macquarie University.	2001	No	Detailed outcome based longitudinal study in Australia using control groups. Study found FGCs generated additional kinship foster care for children and respite for children reported for abuse and neglect. Benefits were more pronounced for younger children.	Australia

Knut S, Vinnerljung B and Ryburn M	Social workers' attitudes towards family group conferences in Sweden and the UK.	Child and Family Social Work 6(4), 2001: 327-36.	2001		Examination of attitudes from referring social workers in Sweden and England to FGCs and the relationship between attitudes and referral rates. Study shows high regard for the model but this isn't reflected in referral rates.	England/Sweden
Shore N, Wirth J, Cahn K, Yancey B & Gunderson K	Long Term and Immediate Outcomes of Family Group Conferencing in Washington State	Restorative Practices	2001	http://www.iirp.edu/iirpWebsite/web/uploads/article_pdfs/fgc_wash.pdf	Qualitative study of outcomes for families referred to FGCs in Washington demonstrated higher rates of reunification and kinship placements than traditional approaches and higher rates of paternal family engagement. Findings were sustained for over 2,5 years.	US

Pennell J & Burford G	Family group decision making: Protecting children and women	Child Welfare, 79(2), 131-158	2000		This study of family group conferencing in Newfoundland and Labrador was conducted in 1993-1996, in three culturally diverse regions: Inuit, rural and capital city. Over an approximately one-year period, family group conferences were convened for 32 families, with	Canada

					<p>472 participants at their conferences, Interviewees thought the family was better off because the conference strengthened positive relationships and enhanced their sense of being family. In addition, interviewees reported that children from the project families suffered less maltreatment and had better parenting. A review of child welfare files found a reduction in indicators of child maltreatment and domestic violence for the 32 project families and a moderate increase for the 31 comparison families. After the conference, child protection workers were less likely to make emergency visits to project families than to comparison families because they knew the project families better. The number of child placements stayed relatively constant for the comparison families and fell for the project families. Small in number but nevertheless troubling, children and youth abusing mothers appeared to persist for project families and rose for comparison families.</p>

Frost	Family group conferences: context, process and ways forward	Child & Family Social Work - Wiley Online Library	2012	http://onlinelibrary.wiley.com/doi/10.1111/cfs.12047/abstract	This is the first part of a two-part review of the literature, policy and practice relating to family group conferences (FGCs). This first paper explores the background, the global policy context, the theoretical foundations and the process of undertaking FGCs. In the subsequent review, the authors will examine the issue of outcomes, research findings and explore future challenges in implementing FGCs.	
Fox D	Family Group Conferencing and evidence- based practice	<i>Research, Policy and Planning</i> (2008) 26 (3), 157-	2008	http://ssrg.org.uk/wp-content/uploads/2012/02/rpp26	Family Group Conferencing is an established method of intervention in criminal justice and social work in the UK and abroad. Describing briefly	

		67		3/family.pdf	restorative justice, Family Group Conferencing and the evidence for effective interventions, this article examines relevant research and literature and explores disparities in the knowledge base regarding Family Group Conferencing and the 'what works' agenda. The paper highlights the limited empirical research undertaken to evaluate Family Group Conferencing, particularly where focused on vulnerable young people and especially where there are child welfare and youth justice concerns.	
Burns G and Fruchtel F	Family Group Conference: A Bridge between Lifeworld and System	Br J Soc Work (2012) doi: 10.1093/bjsw/bcs192	2012	http://bjsw.oxfordjournals.org/content/early/2012/12/29/bjsw.bcs192.abstract	This article examines the hypothesis: what makes FGC necessary is not the issue of racism, but a more fundamental phenomenon of administration, law, professionalism and modern government. The authors argue that FGC is a legal and professional procedure, needed to cure the unhelpful side effects of a legal and professional welfare state system. To explain this, they follow Jürgen Habermas's Theory of Communicative Action (1987), which explains why system logic overpowers peoples' logic, even when this is not the intention of social work professionals.
